Summary

Product Manager with hands-on experience leading **cross-functional teams**, defining **product strategy**, managing **stakeholder relationships** and **clients**, and delivering successful **product releases**. Skilled in aligning **business goals** with **customer needs**, driving user-centric improvements, and leveraging **data-driven insights** to accelerate product growth. Passionate about building impactful products, fostering **collaboration**, and continuously **adapting** in dynamic environments.

Experience

BigStep Technologies | Remote, India | Project/Product Manager **Jan 2026 – Present**

- Leading the product development of the **HomeBuild Assist AI agent** for **JSW Group** to analyze architectural drawings and provide automated material and cost insights that are projected to reduce project wastage by up to **20%**.
- Achieved a **30% pre-sales conversion** rate by building functional prototypes using **Claude Code** and **Figma Make** while designing comprehensive technical roadmaps for high-impact enterprise leads including JSW (IND), Possibl AI (NZ), SmartWorks (SG) & more.
- Optimized user experience for **3+ IHCL projects** including the **Taj InnerCircle App** by leading UAT and overseeing UI/UX refinements for high-priority feature sets to ensure alignment with premium hospitality standards and global guest needs.

Recognition: Awarded a **Certificate of Appreciation** for exceptional learning agility and impact across project and product management

InteligenAI | Gurugram, India | Product Manager **Jan 2025 – Sep 2025**

- Led product development for **Intellivisa** (AI-powered visa application software), utilizing tools like **Jira**, **Draw.io**, and **Power BI** to plan sprints and deliver data-driven insights that resulted in a **~30%** reduction in form-filling time through OCR & RPA integration.
- Directed the full product lifecycle of **EMR - GHMIS**, from requirement gatherings to rollout, ensuring **100% scope completion** for version 2.0, driving user-centric improvements via feedback loops with doctors, and securing early adoption by 2 hospitals.
- Automated Jira reporting via **Google Apps Script** to enhance non-tech **stakeholder visibility by ~85%**; managed a **cross-functional team of 10**, utilized **Microsoft Clarity** and **Google Analytics** for behavioral insight, boosting EMR **performance score from 55 to 81**.

Comono AS | Remote, UK | Product Manager **Sep 2023 – Nov 2024**

- Spearheaded the development and launch of **Prevale**, an end-to-end accounting and compliance ecosystem, by defining the product roadmap, detailing product requirements, and writing user stories, resulting in a **2-week reduction** in go-to-market time.
- Defined the product charter by conducting user studies, formulating and testing hypotheses, identifying system gaps, and streamlining release cycles, leading to improved stakeholder communication and engagement.
- Managed a **cross-functional team of 5**, including engineers and designers; refined UI design, led scrum meetings, conducted user acceptance testing (UAT), and maintained project documentation in **Notion**, achieving **~90% alignment** with user feedback.

Education

University of York | UK **Sep 2022 – Sep 2023**
MSc in Engineering Management | Grade: 74/100 **(Distinction)**
Awarded the £2,500 Greville Bloodworth Scholarship for academic excellence

CHARUSAT University | India **Jul 2018 – May 2022**
B.Tech. in Computer Engineering | Grade: 9.45/10 **(Distinction)**
Beta Microsoft Student Ambassador (3+ years); mentored over 100 students globally

Projects

My PSJ Foundation | India | Founder **Dec 2024 – Present**

- Founded and led development of a **social platform** connecting NGOs with donors, designing the matchmaking logic and successfully connected with **9+ NGOs** for onboarding to streamline donor support.

Technology Transfer of AI between Markets | UK | Team Leader **Apr 2023 – Sep 2023**

- Investigated the transfer of **AI Recommendation Systems** to emerging markets, proposing **3 scalable strategies** focused on sustainable consumption and global commercial viability (MSc Thesis).

Skills

- **Product Management:** Agile Methodology, Product Strategy, Product Requirements, Product Life Cycle Management
- **Tools:** Jira, Notion, Claude Code, Figma (Make), Draw.io, Microsoft Office Suite, Google Analytics, Microsoft Clarity, Power BI
- **Soft Skills:** Communication, Cross-Functional Leadership, Stakeholder Management, Analytical Thinking, Product Pitch
